

7 Chamber Directors Ask Probe Of Local National Park Office; Say Coleman Did Not Cooperate

A resolution calling upon U. S. Senators Edward Martin and James H. Duff and Congressman James P. Lind to request the U. S. Department of the Interior to conduct an investigation of the Gettysburg National park office was adopted by the directors of the Chamber of Commerce at a meeting held Monday night in the chamber's office in the Kadel building.

The resolution was presented by Henry W. Garvin, president of the chamber. It was adopted unanimously. Seven members of the board were present, President Garvin and Directors Ralph Z. Oyer, N. A. Meligakis, William Musser, Calvin A. Cluck, Charles B. Bender and Arthur E. Hutchison.

Objects To Civil Service
"A few years ago the guides' association had some trouble with the park service," Garvin explained. "They wanted to put the guides under civil service. That would have been detrimental both to the public and ourselves."

Garvin said a bill was prepared at the request of the Interior department placing the local guides under civil service, and Chester A. Gross, York, then congressman from this district, sought information here from the guides and learned they were opposed to civil service. The bill was "thrown out," Garvin said.

Garvin said that the park office here "ignored a request from the guides" that the minimum number be fixed at 55 and new guides designated, as old ones die or retire, and that Dr. J. Walter Coleman, park superintendent, had "failed to cooperate with the guides, and had misrepresented them to his superiors in the Interior department."

Says Guides Were Threatened
He declared that Dr. Coleman had "threatened" the guides when they opposed the proposed civil service plan and told them he could "get rid of them."

Mr. Garvin also declared that the park service had "instituted means and methods of taking business away from the guides and others through the publication at government (taxpayers) expense" of booklets which he said were sold below cost, in competition with several battlefield guide books and other booklets published locally and sold by local merchants.

Exhibits New Booklet
He exhibited a 50-page booklet, which he said the park service planned to sell this summer, at a cost of 20 cents each, containing a map and route for a battlefield tour, together with starting point and numbered "stops" and explanatory matter for each stop describing briefly the action which took place during the battle at each of these stops.

This "self-guide" to the battlefield would tend to take jobs away from the battlefield guides and would be in competition with other booklets sold locally, Garvin said. "It puts the government in competition with local business," he added. Other pamphlets, printed by the government, are "given away" he said.

\$12 A Day Salary
"The park service employees men during the summer at \$12 a day to distribute these booklets at below cost," Garvin added.

He declared that if battlefield guides were under civil service, they would work eight hours and go home, whereas, under the present system, "battlefield guides are on the job as many hours as there are tourists who want to go over the battlefield."

In connection with the use of the new "self-guide" booklet, Garvin said a local battlefield guide folder contained a "better map," and declared that signs had been prepared by the park service to be set up as "stops" on the battlefield.

C. C. DIRECTORS VOTE TO ASSIST CREDIT BUREAU

Directors of the Chamber of Commerce voted, at their regular meeting in the chamber's office in the Kadel building Monday night, to spend up to \$150 for equipment to set up a retail credit bureau in Gettysburg if a survey of the merchants indicates enough support to make such a bureau self-supporting.

Methods of operating a credit bureau were described by Director William Musser and Malcolm Miller, who made a recent visit to the Harrisburg credit bureau. Musser said a survey of local business firms would be made to determine whether a bureau could be established here.

Lack Sufficient Funds
Directors discussed the financing of the bureau and agreed that the chamber's funds did not permit it to advance an amount which probably would be needed. It was suggested that merchants themselves could underwrite the bureau by purchasing bonds or signing notes. The money thus obtained to start the bureau could later be refunded, they said.

Musser also reported that a membership drive would get under way in the near future. Mrs. Helen Snyder, secretary of the chamber, reported 72 paid-up members to date. During the past month, she said, 225 inquiries had been answered and approximately 2,000 Gettysburg folders sent out.

A report on the recent formation of a retail merchants association was given by Director Charles B. Bender, who was commended for his part in calling the recent organization meeting and setting up the association. Directors of the chamber were urged to attend future meetings of the retail association.

OFFERS TO WORK IN JAIL TO PAY \$600 DEBT HERE

A defendant who promised to "go to work in the York county jail" to pay off the costs of his cases in Adams county court drew a suspended sentence from Judge W. C. Sheely Monday afternoon.

C. Eugene Moul, East Berlin, who had pleaded guilty to charges of cheating by false pretense and prison breach, told the court of his plans to pay off some \$600 he had obtained from Paul Lerew on false pretense.

He said that if the court gave him a suspended sentence, since he was scheduled to serve a sentence in the York county prison, he would "get a job in the York county jail and maybe make \$5 or \$6 a week and I could apply that on the costs of my cases here." He said that in York county prison the prisoners have the opportunity of working in the laundry or other parts of the jail to make some spending money.

Family Is Helping
His mother, brother and wife, he added, are planning to pay \$70 a month to Mr. Lerew until the entire \$600 has been paid off. He added that since December 30, 1949 he has been out of jail only one month. The remainder of the time has been spent either in York or Adams county jails.

The court, after warning Moul that any plans he may have discussed with the district attorney, or his own attorney, would not be binding on the court, agreed to give him a chance to work out his problem. He was given a suspended sentence on both cases, placed on probation for one year and ordered

SEEK PLANS FOR NEW ADDITION TO HIGH SCHOOL

With a \$200,000 addition to the Gettysburg high school under construction, the joint district board Monday evening instructed its planning committee to secure plans for a second addition that will include classrooms and a 1,500-seat auditorium.

No figure was given on the probable cost of the new section which would join the present building on the north and occupy school land now used as a parking lot.

Predicting a high school enrollment of 1,000 or 1,100 next year, Dr. L. C. Keefeauver, Gettysburg superintendent, told the board: "More high school classrooms will be needed very soon because our high school enrollment is going to reach a new peak within the next four years."

Crowded Conditions

He indicated that if the south wing now under construction is ready by September it will relieve crowded conditions in the present building and provide adequate facilities until the proposed second addition can be erected.

The building now under construction will include shops, music and home economics rooms and a large cafeteria, freeing rooms now used for those purposes in the main building for conversion to classrooms.

Discussion of the high school addition led to consideration of elementary school needs in the joint district and the planning committee had included in its assignment consideration of housing facilities for the lower grades.

Agreeing that some improvements will have to be made promptly at the High Street building, Dr. Keefeauver told the board that spending any considerable sums on that building would be "like paying for a dead horse."

Summer School To Open On June 11

Summer school will open at Gettysburg college on June 11, according to Charles R. Wolfe, registrar and dean of admissions. There will be two terms of six weeks each, the first term ending July 21 and the second on August 31. Regular college courses will be given on an accelerated scale.

"How many may register for summer courses will pretty well depend upon Selective Service," Mr. Wolfe said. "We may have a registration of 400, or it might go over 500. Last year we had 300," he said.

The courses to be given will include both academic and ROTC, the registrar said. Registrations will close in May.

JUDGE SAYS ALL YOUNGSTERS ARE BASICALLY GOOD

"Every youngster is basically good and it's our job to find the cause of his difficulties and discover what is best to do about it," Judge W. C. Sheely told members of the Gettysburg Lions club Monday evening in a discussion of "Juvenile Courts."

"Misbehavior is natural and is only a symptom. The cause can be found only by investigation," the local jurist asserted as he cited numerous case records—without identifying the persons involved—to illustrate the many reasons that a child may steal, be a truant at school or otherwise come to the attention of the juvenile court.

Protect Juveniles

The judge explained that special attention is given to keeping juvenile court proceedings secret to protect the youngsters involved from becoming "marked" individuals among their friends and schoolmates. Stating that while many of the cases before the juvenile court are "not serious" and often involve traffic violations, the judge continued: "Any institution that deals with the problems of from 100 to 150 children each year in a community the size of ours is not unimportant. Not all the cases are important but some are and all are important to the persons involved."

The speaker explained that juvenile court cases are handled on the belief that "misbehavior is as natural in a youngster as a temperature is with a cold. Therefore a youngster

DR. WOLFF

Dr. Frederick Tilberg was re-elected secretary and Calvin Shank, treasurer. C. W. Epley, Jr., was named sergeant-at-arms. The new officers will assume their duties in July.

Prices To Rise

"Prices will continue to rise during the coming years," Dr. George Brandow, of the Department of Agriculture at Penn State college, told the Rotarians during their regular meeting at the "Y" preceding the directors' session.

"The inflationary situation may persist for several years, and if we do not handle it better than we have we are going to have outstandingly high prices eight or 10 years from now," the speaker declared. "We already have high prices, and the pressure that will come from government war purchases has not as yet been fully felt," he added.

"We have two things operating at the same time. We have much of our production removed from normal channels and placed into war production, which means less goods for the average consumer. At the same time we have tremendously increased government purchases, cost plus production, and lots of money floating around. People keep bidding against each other for the civilian goods that are available—and you have inflation, higher prices."

"Can't Stop Pressure"

"Nothing can stop that pressure except increased production. But you cannot increase production as fast as the supply of money is increased, because of the physical limitations. It takes time to build factories, tool them and get them into production, for one thing. Secondly,

ONE DAY SENTENCE

John Gartland, 71, of Newark, N. J., arrested by borough police at 7:30 o'clock Monday night on Baltimore street on a disorderly conduct charge, was sentenced to one day in the Adams county jail by Justice of the Peace John H. Baschore this morning.

Police Assigned To High School Zone

Borough police officers will be assigned to traffic duty at the Baltimore street entrance to the high school for a half hour each morning and a half hour each afternoon on days that school is in session, to direct traffic, Burgess William G. Weaver said today.

The action followed a request from the Gettysburg school board. Officers will be on duty between 8:15 and 8:45 a.m. and 3:15 and 3:45 p.m., the burgess said. Traffic at the school entrance is heaviest during these hours, with a number of school buses as well as private automobiles entering and leaving.

Burgess Weaver said police would supervise traffic at the school "insofar as possible" when it did not interfere with other police duties.

SCHOOL BOARD VOTES \$100 FOR MOST WORKERS

In response to a petition signed by most of the teachers of the Gettysburg joint school system, the joint school board in session Monday evening voted all teachers, office secretaries and janitors in the district a \$100 cost of living bonus.

It was estimated the bonus will cost the joint school district between \$8,000 and \$9,000.

The teachers' petition had asked for "a minimum of \$150" to offset rising living costs, increasing income taxes and a more costly teachers' retirement plan and to bring Gettysburg in line with similar action being taken in many school districts throughout the state.

Action on the teachers' bonus was unanimous and came after considerable discussion.

Some Lack Funds

The first motion was made on the teachers' request and after that was adopted a second motion was quickly approved giving the same bonus to janitors and the two office secretaries at the high school.

Directors indicated the probability that at least several of the districts will have to borrow money to cover the bonus payments.

After Mrs. Erma Poppay, chairman of the district board's personnel committee, read the teachers' petition, the first suggestion was that the matter be turned over to the personnel and finance committees for study and recommendation. In the discussion that followed, it was indicated that most districts

DROP PLANS FOR WORKSHOP

There will be no school teachers workshop this year, the Adams county Elementary Principals' association decided Monday evening at a meeting held at the court house here.

Workshops have been held in the county under sponsorship of the organization and Shippensburg State Teachers' college during the past four summers. This year the group decided to abandon plans for a workshop.

Committees for the penmanship and art contests to be held at the South Mountain and Adams county fairs were appointed. Paul Burkholder, principal of the Hoffman school, led a discussion of problems of elementary school teachers.

The group passed a recommendation that a standardized test be used for examination of sixth and eighth grade students in the county rather than the Penco tests which have been used for a number of years.

Members of the group noted that the Penco test, made up by the offices of the county superintendents in 18 Pennsylvania counties, "falls to provide a check of our students against other students in other states and also fails to set standards by grades." The principals recommended a standard type test given in other schools over many years. Such tests, they noted, permit a check of county students against the results of thousands of students throughout the nation, and also provide norms by which each child can be tested as to whether he should be in a particular grade, as compared to the results of similar examinations given in hundreds of other schools and the findings, grade by grade, in those schools.

Yanks Chasing Chinese Reds Back Toward 38th Parallel

Tokyo, March 13 (AP)—American troops stormed back into Yudong today and wrested control of the village from a battalion of Chinese Reds.

Yudong is 11 miles southeast of Hongchong, and less than three miles southwest of a Chinese concentration area.

A U. S. Second Division patrol first entered the town Monday night but withdrew after a brief fire fight.

Elsewhere along the 70-mile front United Nations forces were chasing strangely elusive Chinese and North Korean soldiers back toward the 38th Parallel.

Probing spearheads of three Allied columns closing in on Hongchong were within 25 miles of the old boundary between North and South Korea.

Smash Road Block

In the assault on Yudong the doughboys first smashed a road block half a mile south of the village. Then they stormed ahead despite mortar, automatic weapons and small arms fire.

At the same time Fifth Air Force fighter-bombers blasted the Red concentration area to the northeast. Further east U. S. Seventh Division patrols scoured the countryside in a vain search for Communist strongholds.

One patrol found a roadblock but no enemy troops. Another patrol bumped into about 12 Communists west of Amidong. Five Reds were killed and the others dispersed in a brief close-range fight.

Southwest of Hongchong a company of the U. S. First Cavalry Division

It's temple is wherever good men get together, its shrines and sanctuaries are the hearts of men. More than the impetuous comradeship of youth, it is the settled faith of men in them. High Street building but there was no inclination on the part of the board to go much further with improvements there although directors from some of the rural districts said they preferred to use the High Street building to many of the rural schools, many of which are in need of extensive repairs.

Changes At Lincoln School

The planning committee also will have changes to consider at Lincoln school where the present study hall probably will be divided to form more classrooms. A shortcoming of that building, the superintendent pointed out, is that it has no playground area.

Dr. Keefeauver said he believes all present facilities at the high school will be usable after the additions are built. He disclosed that the present 620-seat auditorium may become the library in the enlarged plant while the present library—which would be too small—would be cut up into two classrooms.

After the meeting, planning committee members and their chairman, Ralph Guise of the Straban board, discussed plans for an early meeting to prepare a report for the April or May meeting of the joint boards.

Ask Federal Help

The boards of the joint district passed resolutions authorizing their officers to execute new supplemental agreements and leases with the Gettysburg school authority in connection with the addition of Franklin township to the joint district on a secondary level.

Dr. Keefeauver said a survey has showed that only Highland and Freedom townships in the district do not qualify to apply for federal aid on the basis of parents' employment on government projects. He said the survey showed 34 pupils in Cumberland, 18 in Straban and 28 in Gettysburg on which application for federal aid may be made. The individual boards adopted resolutions authorizing their agents to make the applications. Franklin township said it found 41 children or nine per cent of its enrollment coming from homes where parents were employed in government work. Franklin already has made application for U.S. funds.

Repairs were ordered to pavements at High Street and Meade schools and flags for the May 30 parade were ordered.

To Need Some Teachers

Under the report of the personnel committee, it was brought out that industrial arts and home economics instructors will be needed at the high school next year and "maybe several elementary grade teachers."

The board approved the hiring of two buses to take the high school choir to York to compete in state forensic and music contests.

Monthly reports were submitted by the Gettysburg National bank as treasurer showing a general fund balance of \$40,597 after expenditures of \$22,000. The cafeteria report showed a balance of \$1,061 after expenses of \$1,008 for the month were paid. The activities fund report showed a current balance of \$7,398.39 and the athletic fund report listed receipts of \$391.75; expenditures of \$438.24 and a balance of \$282. Bills totaling \$809 were approved for payment on motion of Ralph Guise, finance committee chairman.

President R. D. Wickerham presided at the meeting with all member boards represented.

Elliott Roosevelt To Wed On Thursday

Miami Beach, March 13 (AP)—Mrs. Minnie Bell Ross, California heiress, and Elliott Roosevelt, son of the late president, plan to be married here Thursday.

Mrs. Ross, 39, was granted a divorce in Key West yesterday from Dr. Rex L. Ross, Jr., of Santa Monica, Calif. She and Roosevelt then drove to Everglades, seat of Collier county, 90 miles west of Miami, and applied for a license to wed.

They told county Judge S. S. Jolley they would return Wednesday afternoon for the license and that they planned to be married by Dade (Miami) County Circuit Judge George E. Holt, Thursday. A close friend said the wedding would take place at Miami Beach.

Normally, Florida's three-day waiting period would mean they could not get the license before Thursday but Judge Jolley said he told them to return Wednesday afternoon, and added:

"I know the law says three days, but I am allowing them one day for coming, one day in between and one day for coming back. That might not be strictly legal, but according to Hoyle I think it will be all right."

South Penn Game Broadcasts Left To Schools; Track Meet On May 12; Officers Elected

Future broadcasts of South Penn Scholastic conference athletic events will be left in the hands of the home school following action taken at a regular meeting of the conference held Monday evening at Shippenburg State Teachers' college.

Ralph Shockey, Chambersburg, chairman of a committee chosen to study the broadcasting situation which arose after gate receipts had fallen off, revealed a three-point finding of the committee which was unanimously approved by the circuit.

The committee reported as follows: (1) We feel the permission or prohibition of broadcasting should be left in the hands of the local schools; (2) even though the choice is of local option, it is the consensus of opinion that the conference is against the broadcasting of any athletic events; and (3) the conference goes on record as opposed to the broadcasting of games by a station of the visiting team.

Harold Hench, Shippenburg, was elected president to succeed Paul Shull, Waynesboro, who presided at Monday's meeting. Other officers chosen were: Vice president, Richard Brubaker, Hanover, and secretary-treasurer, Ray W. Gray, Hanover, who was re-elected.

It was decided that the annual conference track meet will be held Saturday, May 12, at 1 p.m. at Hanover. The meet was previously listed for Friday night, May 11, but the date was changed due to a conflict with a musical scheduled to be held in Hanover that night.

Drop Backing of Game

It was voted to discontinue the league sponsorship of future junior high school basketball championship playoffs due to the financial obligation involved. However, it was decided to permit schools involved to stage such a game on their own responsibility if they so desire.

A lengthy discussion was held on the conflict of band performances prior to football games with warm-up sessions for the teams. It was agreed that band leaders and coaches should get together on the matter and some definite arrangement be made between the respective teams for pre-game drills and band performances.

Mark Burkhardt, Carlisle, made a presentation address for the 1951 basketball championship trophy which Lowell Schlichter, coach of the championship Chambersburg team, accepted on behalf of the school.

Thirty-five representatives of the eight schools of the conference attended the meeting. Those representing Gettysburg were George Forney, Howard Shoemaker, Ross Sachs and Rogers Herr.

BARR NOTHING

Homer Barr, Penn State heavyweight wrestler, had won 30 straight matches against eastern foes before he was shaded by Dick Clark, the Cornell football tackle a week ago. . . . Then he copied three matches in the Eastern Intercollegiate championships before dropping the closest kind of decision to Princeton's Brad Glass, another footballer. . . . Although he was surrounded by well wishers and his wife was almost in tears after the match, Homer didn't say a word until a pal commiserated him on his defeat. Barr just said: "It's getting monotonous, isn't it?"

The Gettysburg Shirt Factory is now running sixty hands and has orders for some time.

Amos Eckert will shortly put in a new glass front and make improvements to the cigar store on Chambersburg street, at present occupied by Edgar Martin.

Dr. Henry Stewart recently made an x-ray photograph of the arm of Harry Wibbe, son of Mrs. Mary Wibbe, of this place, and discovered marks showing the presence of twenty-four shot. Harry received an accidental, gun-shot wound in the arm four years ago. The shot can be plainly seen, lying in the muscles around the bones of the arm.

Governor Stone last Wednesday, confirmed the appointment of William P. Quimby, Esq., of this place, as Notary Public.

Last Wednesday was the coldest day of the year, the thermometer registering as low as 6 degrees above zero.

The "History of the 87th Pennsylvania Volunteers," by Prof. George R. Prowell, has left the binder's hands and is now ready for distribution. Subscribers can get copies of the book from Hon. Wm. T. Ziegler.

Springs and Hotel Company Asks for a Receiver: On Thursday and Friday, testimony was taken in the equity proceedings of H. H. Tallmadge, Gilbert B. Towles and Calvin Gilbert vs. Emory Blair, Henry O. Towles and the Gettysburg Springs Hotel company.

The following facts form the history of the company:
In 1891 an organization was formed by J. Emory Blair and Calvin Gilbert, of this place, and W. F. McCarthy, of Hagerstown, Md., for the purpose of buying lands on the battlefield of Gettysburg, the charter being taken out in the State of Maine, June 1; that subsequently, within the next year or two, H. H. Tallmadge, Gilbert B. Towles and Henry O. Towles, all of Washington, also being interested; and that almost 1200 acres of land were purchased.

It appeared that the title to this land was taken by J. Emory Blair, in trust, and that afterwards, through intermediaries, it was transferred to the Springs and Hotel company.
The object of the proceeding is to have a receiver appointed; one of the questions in issue being whether the organization is a partnership or a stock company.

Personal Mention: Samuel Weiser, brakeman on the P. & R., of this place, attended the Inauguration with Company G, 8th Reg. N. G. P., of which he is a member.

Today's Talk

By GEORGE MATTHEW ADAMS

BETTER OR WORSE?
Each day of our lives we are one day older, with one day less to live. While this is an obvious statement, nevertheless it creates a stir in the mind when its seriousness is given proper appraisal.

Are we wiser, better off, and a more valuable human being, not only to ourself but to the world at large, today — this day? Have we progressed over yesterday, or over the day of one year ago? We may make no note of this, but it would be well if we did, that we might know whether we are growing better or worse.

It is often stated that the most creative years of a man's life are between the ages of forty and sixty. Perhaps so—but we would have to get rid of an army of Edisons, Fords, Shaws, MacArthurs, Churchills, and Robert Frosts, and that would be a sad day for the human race. It is largely from those who have passed the age of sixty, and who still create, that we gain inspiration and courage. To them, those between the ages of forty and sixty, look for their cues!

Each of us should review and appraise each day as it closes. Each of us should ask himself: Have I gained or lost? The mind can still be young at seventy—or beyond. The great Dr. Osler once stated that "The real work of life is done before the fortieth year and that after the sixtieth year it would be best for the world and best for themselves if men rested from their labors." We are happy, however, that this inspiring Doctor remained a light to innumerable men and women far beyond his suggested creative years.

The most important day of our life may be—today. If we make it so, tomorrow will take care of itself. It always has!

Too much temporary prosperity has often stunted the moral and spiritual values and so slowed one's progress as to endanger the gains that have been made. We all need humility in our lives to make them steadily progressive and soundly constructive. It is far better to build for personal happiness, and contentment of mind, than for wealth or temporary acclaim.

Sitting at breakfast in a Jacksonville, Florida, hotel, a few years ago, a tall, fine looking man asked to join my friend and myself. As he did so, he said, "Boys, I grow happier and happier each day of my life!" He told us he was in his early eighties.

Tomorrow Mr. Adams will talk on the subject, "Our Other Lives"

Just Folks

By EDGAR A. GUEST
WEDDING THOUGHT
I hear them at the altar vow
For worse or better, weal or woe,
And think: "All they are pledging now
Will take them many years to know."

"Tis well they seem so unaware
Of all the coming days may hold—
The trials they may have to bear,
And never let their love grow cold."

"This is their happy wedding day,
When all is rapture and delight,
And sorrow still is far away,
And there is not a cloud in sight."

I pray they'll still be hand in hand
When time reveals what's hidden now
And they have come to understand
The meaning of the marriage vow.

NEW engineering advancements make traditional Dodge dependability GREATER VALUE THAN EVER

THE DODGE reputation for dependability and long car life is a matter of record . . . a record of 37 years . . . a record no other car can match.

And with the many new advancements engineered into the great '51 Dodge, this famous dependability makes Dodge an even bigger value, an even bigger dollar buy.

For example, new Oriflow Shock Absorbers smooth out the bumpiest roads to give you a level, more comfortable ride . . . smother the jolts . . . reduce wear on vital chassis parts.

Cushions moving parts. Dodge Gyro-Matic, lowest priced automatic transmission, along with Fluid Drive

makes handling easier and smoother for you. But equally important, Dodge Fluid Drive cushions the power thrusts from engine to rear wheels. Starts and stops are soft and smooth. Your car and your tires last longer.

Yes, everything about this great new Dodge—the way it looks, rides and handles—tells you that here's a car built to deliver years and miles of dependable, low-cost service.

5 minutes tells why. Give us just five minutes. Let us show you how you could pay up to \$1,000 more and still not get all the extra room, handling ease and rugged dependability of this great new 1951 Dodge.

NEW ORIFLOW SHOCK ABSORBERS! With twice the shock absorbing capacity, you actually "float" over roads so bad they stop other cars. No bounce, pitch or side-sway—wheels stay on the ground for a smoother, safer ride.

Fresh Vegetables Lost By Car Shortage

Miami, Fla. March 13 (P)—A shortage of refrigerated railroad cars is forcing Florida farmers to waste hundreds of acres of fresh vegetables.

With an estimated 3,000 freight cars needed right now to ship the millions of dollars worth of vegetables north, many farmers are having to plough under or watch go to seed, ripened crops.

The estimation was made by Gordon Stedman, secretary-manager of the Growers and Shippers League in Orlando. He described the situation as "the worst in years," and

SPY GAVE NEW
ATOM BOMB DATA
TO RED AGENTS

New York, March 13 (AP)—A confessed spy awaiting sentence says he gave accused Russian agents a description of an atom bomb newer than the one used at Hiroshima.

David Greenglass, 29, a former army sergeant, testified in Federal court that he gave the description to his brother-in-law, Julius Rosenberg, 33.

Rosenberg and his wife, Ethel, 33, who is Greenglass' sister, are on trial accused of conspiring to spy for Russia in wartime—an offense for which they could be sentenced to death.

A third defendant, Martin Sobell, 33, a radar expert, was not mentioned in yesterday's testimony.

Was Foreman At Plant
Greenglass, who once worked as a foreman at the Los Alamos, N. M., atom bomb project, told the court that Russian spies also had obtained information on a fabulous space ship plan.

The witness said Rosenberg, an electrical engineer, had told him he got information on the "sky platform project" from "one of the boys"—not further identified.

Greenglass described the space ship plan only briefly:
"Julius said it was some large vessel of low gravity suspended between the moon and the earth, and as a satellite it travelled around the earth like the moon."

Greenglass said he gave the data on the new type atom bomb to his brother-in-law in September, 1945, about a month after the earlier model was dropped on Hiroshima.

The witness said he got his information while working at Los Alamos.

Had Early Knowledge
Greenglass' testimony on the atom bomb came near the end of the trial's fifth day, and it contained a number of surprises.

He said the Hiroshima bomb—the first one dropped on Japan—was "the only bomb of that type which was made."

He also related that Rosenberg had described for him in January, 1945, the Hiroshima bomb, which was not dropped until seven months later—on August 6, 1945.

Schedule New Talks
In Steel Dispute

Pittsburgh, March 13 (AP)—Government negotiators scheduled another meeting today to try to end a dispute which has shut off vital steel production at the big Pittsburgh works of Jones and Laughlin Steel corporation.

The dispute is between the Brotherhood of Railroad Trainmen and the Monongahela Connecting railroad, a small line which serves the steel plant.

Jones and Laughlin furloughed nearly 12,000 workers yesterday. A spokesman said the shutdown was

necessary because about 500 BRT members employed by the railroad engaged in a slowdown, "taking so long to throw switches and perform routine duties that it was no longer possible to operate the steel plant."

Earl B. Welcome, of Cleveland, deputy president of the BRT, who came here for the negotiations, flatly denied the charge. He said his union members merely followed to the letter the railroad's operating rules.

Yanks Chasing

(Continued from Page 1)

threw back three counterattacks by Chinese Communists.

The company was out ahead of the general line attacking a hill when about 700 Chinese hit from both flanks and the front.

Reds Withdrawing
Air strikes and artillery barrages blasted the attacking Reds. Finally infantrymen drove off the Communists.

There was no ready explanation for the sudden Communist withdrawal from the mountain redoubts where they had fought bitterly for every yard of ground. Some front line officers said possibly they were pulling back to make a new stand in prepared defenses in the ridges north of Hongchong.

All along the 70-mile front the Reds were putting up only a show of rear-guard resistance.

But Allied commanders were wary. They did not label the Red withdrawal a rout.

"We've got the enemy reeling back but he still isn't knocked out," said Maj. Gen. Claude B. Ferenbaugh, commanding the battle-tried U. S. Seventh Division.

Reds Getting Help
The outlook is optimistic, but we're keeping our guard up."

Even as the Reds drew back from their front line positions their reinforcements were coming up from the rear.

Air observers reported heavy Red vehicular traffic moving north from Seoul. Some sources suggested this indicated the Reds were pulling out of that rubbled South Korean capital.

In the central sector, British and Canadian troops pushed to within four miles of Hongchong.

The U. S. First Cavalry Division, on the British left flank, were reported only four and one-half miles from Hongchong. It was driving along the road that leads northeast from Yongdu.

Ridge Is Seized
North of Hongchong, on the British right flank, the U. S. First Ma-

rine Division seized the last ridge line before Hongchong. It was within five air miles of Hongchong.

A P Correspondent Leif Erickson reported from U. S. Eighth Army headquarters that the expected Red defense of Hongchong had failed to materialize.

Erickson said it appeared the Reds might make a stand north of the city along the Hongchong river.

OFFERS TO WORK

(Continued from Page 1)

to pay \$70 per month on the restitution to Letew.

Sheriff Dorsey Shultz told the court how Moul had escaped from him while being taken to Justice of the Peace John H. Baschere's office for a hearing on a cheating by false pretense charge.

A detainer from York county on parole violation was waiting disposition of the case here.

Action In Assumpsit

A hearing was held before the court Monday afternoon on an action in assumpsit brought by Alfred J. Shillitani, New York city, against Penn Ceramic manufacturing company, Aspers. After arguments on preliminary objections were made by the law firm of Swope, Brown and Swope for the defendant and Attorney J. Francis Yake, Jr., for the plaintiff, the court announced it would hand down an opinion later.

A hearing was held on desertion and non-support and surety of the

peace charges against Marion B. Bay, of Littlestown and Baltimore. No order was handed down on the support case after it was revealed that Bay and his wife had made arrangements for him to pay an allowance for her and their child. He was ordered to post \$500 to keep the peace on the surety charge.

Wingert Hears Case

Judge Edmund Wingert, Chambersburg, presided at a desertion and non-support case against James Mauston, Gettysburg. Mauston was directed to pay the costs in the case, to pay \$5 per week, keep up the payments on his home, but is to have the right to all rentals of his home by others. The order was described as temporary until Mauston's wife returns from Washington. According to the testimony Mrs. Mauston is in Washington working without pay for a family there. Her mother, and other "in-laws" of Mauston are living at Mauston's home, where he has a room. There was some testimony that some of the "in-laws" have a lodger and Mauston is to receive whatever rent is paid by the lodger.

SAVE AT THE FIRST NATIONAL

SAVE FOR A
SUNNY DAY

One Way To
Beat Inflation

Clouds on the horizon threaten America's freedom. To meet this danger, we must make more goods for self-defense and not so many items for civilian use.

As civilian goods grow scarcer, prices, unless controlled, go higher. Dollars lose buying power. But note this fact: the saving power of your dollars remains unchanged.

Therefore, some sunny day, when skies have cleared, your dollars on deposit in the First National Bank of Gettysburg will come out as big as they ever were.

So, instead of the old idea of saving for a rainy day, the smart strategy now is to save for that sunny day.
